Host Company activities explained

Mark Reed described the training services provided by the organisation -

They provide training from NEBOSH up to Diploma level as well as IOSH and CIEH accredited training. Also acting as a consultancy internationally providing external audits, CDM Coordination on major projects in the UK, and construction projects in the Middle east.

Their main specialism is developing and providing support in Behavioural Safety Programmes having an accredited course in Behavioural Safety and Safety Coaching using NLP techniques.

They also provide Technical Training for Power Generation Industry and various aspects such as rotating equipment in the Oil and Gas industry.

Discussion topics included:

NEBOSH study & terminology – accredited courses available from Apix – see above.

Fire evacuation plans – flow charts for dead end buildings, and rooms inside a room.

CSCS - providers of test facilities and support.

Lifting plan / Crane method statement = Crane op, Banksman, steel installation fitters

Childsplay manual handling video, and other resources – e.g. www.worksafebc.com

Case studies of accidents – How to tackle planned absences “throwing a sickie”

UK legislation updates: No changes were identified

Close of meeting - at 12:40pm

Next meeting - Will be back to our normal 10-week interval, taking us past the factory summer shut downs and school holidays to mid 2011 / around 8th of August.

Venue to be arranged - Osborne Training Services + Morpeth Riverside available.

A site visit will always add some extra interest – And showcase your workplace.
